To meet the educational and training needs of business and industry, Butler Community College has taken the lead in the state to develop an Associate of Applied Science in Corporate Studies degree to address the issues of a career path and lifelong learning for today's workers. This AAS degree is unique in that it can be customized to any industry.

The objective of the Associate of Applied Science in Corporate Studies degree is to be responsive to their industry while maintaining the quality and integrity of Butler Community College.

The Associate of Applied Science in Corporate Studies degree is intended to be marketed through the Center for Business Education and Training Analysis (BETA) division and will be delivered in coordination with the appropriate academic division within Butler Community College. Designated faculty members from the appropriate academic division will serve as division subject matter expert (SME) between the academic division and corporate services division. Additionally, it is anticipated that articulation/transfer agreements will be developed with four-year universities.

ASSOCIATE IN APPLIED SCIENCE
MAJOR CODE: CORP

The purpose of this Memorandum of Understanding is to create learning opportunities through a partnership between the Wichita Electrical Joint Apprenticeship Training Committee (JATC) and Butler Community College to deliver an Associate of Applied Science degree to apprentices enrolled in joint apprenticeship training programs associated with the National Joint Apprenticeship Training Committee. The goal is to provide every apprentice of the Electrical Workers program in the state of Kansas with the opportunity to earn a Journeyman's card and an Associate of Applied Science degree during their apprenticeship indenture.

Wages
Salary/hourly rates are dependent on skill level, experience and location.
